

Opti-Web Infeed Tension System

For Webtron 650/750

Product Features:

- Reduce waste caused by inaccurate or oscillating tension control
- Isolates unwind roll tension from press tension creating an accurate adjustable tension zone between the exit pull roll and the Opti-Web unit.
- Operator adjustable Infeed Tension Control with simple rheostat control
- Isolated infeed hysteresis unit promotes consistent oscillation free tension
- Webtron 750 Nip Roller with pneumatic pressure control and Quick Change elastomeric roller
- Fast and easy installation kit includes fastener, wiring harness and pneumatic hardware
- Rugged compact construction quickly mounts directly below the first print station on any Webtron 650 or 750 press
